OPERATING-POINT BOARD

Team record sheet

Team _____ Date _____

Scenario	Predicted Q	Predicted H	Predicted kW	Verified Q	Verified H	Hit? (±1.5)	What we learned
0 Commission the board							
A Strainer fouls by 40 %							
B Supply tank level falls 5 m							
C Operator throttles the discharge to 18 m³/h							
D VFD reduces speed from 1 480 to 1 200 rpm							
E Bonus — second pump started in parallel							
F Bonus — trim the impeller for 18 m³/h							

Hit = within 1.5 m³/h and 1.5 m of the verified point. Verified on: digital board / hydraulic loop bench.
